

Instructions

If it moves , shoot it !

If it doesn't , shoot it anyway !

If it's square , fly through it !

Coming soon ! Part two of the Dark Star trilogy :-

Forbidden Planet / A Certain Ratio

oh - while you're at it . . . read the inlay !

Depress SPACE to continue .

Suggestions

The perspective works to the full in a dark room with the player sitting about four feet away from the display .

The sound effects are produced in stereo and must be played through a stereo system

(the whole effect is lost using the build-in speaker)

We cannot recommend joysticks as they are too clumsy and it is much easier to play on the keyboard .

"What else do we want to put in here ?"

"Don't think there's anything else we want to whine about"

"Right , let's leave it ."
